Portia Light Electric Vehicle

The ride is quiet
The experience is exhilarating

This Light Electric Vehicle is powerful fun. It's 100% electric – so it's good for the environment and lets you cruise past the gas pumps. It's economic so it's easy on your budget. The Portia's compact construction, front suspension and gel seat give you a smooth, quiet ride that's extra comfortable. The Portia is a fun and convenient riding solution for getting around town, commuting to work, zipping to class, or just enjoying the great outdoors without working up a sweat.

The "Portia" LEV offers unassisted power on demand for up to 17 miles* at a cruising speed of 18mph. It's easy and safe, with an easy step through design.

*Dependent on rider weight, pedaling and terrain

Component parts are subject to change without notice
